Yes, we have quite the reputation.

Our name has become synonymous with scandals that span industries, countries, and political persuasions, but our brushes with notoriety date back well beyond the days of the DNC and Tricky Dick.

When The Watergate first came on the DC scene, it seems we were too shapely for our square neighbors. It must be our Italian blood. When we opened our doors in 1965, architect Luigi Moretti shocked and challenged the conservative city's ideals of beauty. But change was in the air, (it was the '60s after all) and we quickly found that

we were not alone. In no time, those bold enough to embrace change found their home at The Watergate Hotel. Hollywood starlets, business tycoons, globe-trotters, creatives, and all the truly fabulous mixed and mingled inside our curvy walls, passed champagne and reveled behind closed doors to their heart's delight.

Before long, of course, the nation took notice for another reason: Watergate rocked America, forever linking our name to one of the largest political scandals in history.

So no. We've never been a stranger to controversy.
And that's the way we like it.
